P.O. Box 1923

Dodoma.

Preface

President's Office Regional Administration and Local Government (PO-RALG); Ministry of Education, Science and Technology (MoEST) in collaboration with Tanzania Institute of Education (TIE) has developed a Secondary School Curriculum Implementation Calendar. This calendar is a roadmap for teaching and learning of all subjects across the country.

This calendar will harmonize teaching and learning pace and content across the country. It has six (6) main parts namely; main competence (main topic), specific competence (sub topic), number of periods, month, week, and date. These features will help a subject teacher to timely plan and achieve a specific competence. A subject teacher is required to adhere to the subject calendar in order to bring in harmonized national-wide teaching and learning.

Specifically, this calendar will be useful for teachers in preparation of scheme of works as well as in the process of teaching and learning of a specific competence timely. The Education Quality Assurance Department as well as education officers at school, ward, district, region, and ministry levels are required to use this calendar as a tool to determine the effectiveness of the teaching and learning process.

The President's Office Regional Administration and Local Government is open to receiving suggestions from teachers and other education stakeholders for the improvements of this calendar. All suggestions should be channeled to Permanent Secretary President's Office Regional Administration and Local Government.

.....
Prof. Riziki S. Shemdoe

Permanent Secretary

President's Office Regional Administration and Local Government

Introduction

This curriculum implementation calendar is the initiative by the President's Office Regional Administration and Local Government and Ministry of Education, Science and Technology to ensure that the curriculum is implemented at its best. It has been prepared by considering the national school calendar for the year 2022. The school calendar has two terms, in which each term has one short and long break. Every teacher is required to use this curriculum implementation calendar in preparation of the scheme of work.

The concept of curriculum implementation calendar

Curriculum implantation calendar is a tool outlining general competence and specific competence as per specific subject syllabus. For each specific competence, this calendar is showing number of periods, month, week and date for attaining it. This calendar is for both public and private schools.

The rationale of curriculum implementation calendar

This calendar will help in harmonising what is supposed to be taught for a specified time across the country. If adhered to all students will learn the same specific competence at the same time. Also, this will help education coordinators and supervisors to identify weaknesses in teaching of a specific subject. Apart from that, this calendar will help in assessments of topics taught in a given time.

The structure of curriculum implementation calendar

Curriculum implementation calendar has six (6) main parts namely; main topic, sub topic, number of periods, month, week and date. These parts are described as follows.

Topic: General content of the subject matter that are expected to be taught in order to develop the intended competences.

Sub topic: These are similar units of the topic that have been arranged in a logical order to facilitate teaching and learning process.

Number of periods: This is a total number of periods required to teach a specific competence as per subtopic. These periods have been adopted from the subject syllabi although for some cases number of periods has been added or deducted to match with number of teaching and learning days as per school calendar.

Month: This is the month in which a specific competence or subtopic is supposed to be taught.

Week: These are five workdays in a month under which a process of teaching and learning will take place.

Date: This is a specific day of the month in which teaching and learning will take place.

The sample of the structure of curriculum implementation calendar

Main topic	Sub topic	Number of Periods	Month	Week	Date

The use of Curriculum Implementation Calendar

This calendar is a roadmap which will help a teacher to access his/her pace in teaching a specific competence as per subject syllabus. It is suggested that a teacher must timely finish all topics and subtopics as indicated in this calendar. Internal and external quality assurers will use this calendar to access the efficiency of the teacher in fulfilling his/her responsibilities.

ANNUAL CURRICULUM IMPLEMENTATION CALENDAR 2022
